Art Unit: 3635

1. This is first Office action on the merits for application serial number 10/653796 filed 09/03/03. Claims 1-10 are pending.

2. The declarations filed 12/05/03 are defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The specification to which the oath or declaration is directed has not been adequately identified. See MPEP § 602. The declarations recite that they pertain to the specification "attached hereto".

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2 and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 6,328,368 to Liu et al.

Liu provides a "gimp" 10 having an U-shaped channel for receiving a "trim piece" (glass pane). The "gimp" 10 is attached to a panel 26 by an adhesive layer 28 which has a protective layer 32.

5. Claim 8 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 5,238,268 to Logan.

See elements 62 and 98.

6. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 5,340,154 to Scott.

See figure 2 which provides gimp 30 of flexible material attached to end of trim piece 28 and bonded with adhesive strip 32 to panel 12.

7. Claims 1, 2, and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 1,777,435 to Hogelund.

Hogelund provides flexible "gimp" 17 having a U-shaped channel for receiving "trim piece" 16. "Gimp" 17 is adhesively secured to "panel" 15 with adhesive 19 having a protective layer 20.

8. Claims 3-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

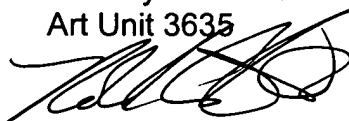

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert J Canfield whose telephone number is 703-308-2482. The examiner can normally be reached on M-Th.
